

ART SPOTTIDINGS

The quest is complete for the 2nd-6th grade students. As part of their study of art in the Middle Ages, they learned about heraldry and created a coat of arms for themselves. You can enjoy some of the fruit of their work below.

The 1st grade students continue to study the art of ancient Greece. They are working on creating samples of the black-figure and red-figure technique that was used for vase painting during that era. We will share some samples of their work in the next issue.
