

ART SPOTTIDINGS

The 1st graders' march through Rome has drawn to a close with the final paper tiles glued to their ancient Rome-inspired mosaics. Below is a sampling of their work.

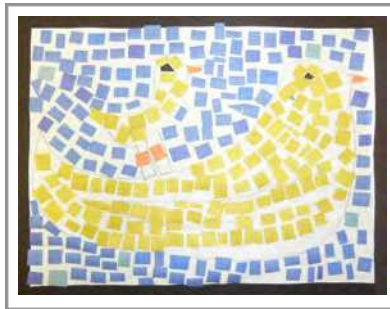

The 2nd-6th graders have done a great job exploring the advances in artistic technique developed during the Renaissance era. Below is a sample of their work learning to draw three-dimensionally using one-point perspective.

I hope you all will be able to come to the HLS art show on April 26th and May 3rd to see all our young artists' favorite works from the past year!
